

Student Records Office

Application for Exceptional Course Replacement

If you have discussed with your Academic Advisor and the Program Coordinator of your major that you may exceptionally replace one of the mandatory courses in your major with another course, please complete this form. The application must be handed in during the semester in which the substituting course is offered.

The following reasons qualify for an Exceptional Course Replacement:

- One of your mandatory courses is not offered any more before your expected date of graduation.
- You have changed your major and would like to replace some of the mandatory courses of your new major with similar courses from your old major.

Please note that the Student Records Office will make the final decision on the course replacement.
