“The student body is great. Actually, Jacobs is probably one of the top universities from which Microsoft hires software engineers in all of Germany. So, it’s great!”

Eva Lobentanz
Senior HR Expert Strategic Programs
Roche Diagnostics GmbH

“The students at Jacobs University are very mature and know exactly in which direction their career should go. The career fair is the ideal occasion for us to search for the right candidates for our data science related stipend program.”

Alexander Nowak, M. Eng.
Branch Manager
SALT AND PEPPER Technology
GmbH & Co.KG

“We think that the Jacobs Career Fair is a very successful event for us as we were able to employ very engaged and empathetic young women after our first visit on campus. In addition, during the fair itself, we were able to meet many very skilled and motivated students.”

Fabian Russmann
D1 Solutions AG

“In particular, the Data Engineering Master students are very suited to the profiles we are looking for: such a curriculum manages to close the gap between technology and industry.”

Loai Fandi
Global Innovation Manager
Drägerwerk AG & Co. KGaA

“Dräger is looking for high potentials at Jacobs University, and would like to get closer to the type of “Generation Y” talent the University has to offer. Jacobs students know what they want and how they can incorporate what they have learned in the companies.”
