MASTER YOUR TALENTS
Graduate Programs at Jacobs University Bremen

OF OUR GRADUATES RECEIVED THEIR FIRST JOB OFFER IN EUROPE OR NORTH-AMERICA / IN GERMANY
The two-year MSc program trains you for the growing field of design and management of supply chains. The program is aimed at students with an already completed first-degree, or equivalent training, in logistics, economics, engineering, or information technology, and for those who can prove a special affinity for the topic. The successful completion of the studies leads to earning an internationally acknowledged Master of Science (MSc) degree and enables a quick career entry in the area of Supply Chain Management in a national or international context. In a business world marked more and more by globalization, complexity and flexibility, the curriculum aims to teach modern leadership and management competencies from the base of intercultural competence.

Throughout all semesters you will discuss human resource management, project management, and career planning. It is strongly recommended to complete a three month internship between semesters two and three to practice and increase your acquired knowledge and abilities. Core components of the curriculum include:

- Supply Chain Management
- Transportation and Logistics
- Leadership and Strategic Management
- Modeling and Simulation
- Advanced Business Mathematics
- International Purchasing and Business
- Business Continuity Management

"Learning in small groups makes a great working environment that enables engaging discussions. The program showed me that logistics is everywhere. And Germany has a great environment for internships."

OLIVER, USA

SUPPLY CHAIN MANAGEMENT (MSc)

BECOME A MANAGER OF GLOBALIZATION
Do you sometimes wonder what a smartphone consists of? How many people in how many places contributed to building it? And how it finally got into your hands?

Understanding your suppliers and supply chain risks is critical since their performance has a direct impact on a corporation’s ability to produce or deliver goods or services. The ability to manage global supply chains is therefore fundamental to success in the global economy. Thus, the program perfectly matches needs within industry and beyond. Graduates’ career chances are with major players in industries like automobile manufacturing, machinery, precision equipment, aerospace, heavy automotive, software and technology.

PROGRAM FEATURES

The two-year MSc program Data Engineering offers a fascinating and profound insight into the foundations, methods, and technologies of Big Data. Students take a tailor-made curriculum in line with their individual interests and needs. The Data Engineering graduate program is composed of a mixture of foundational lectures, specialized courses, industry seminars and applied project work, leading to a master’s thesis that will usually be conducted in close collaboration with an industry partner or even at a company site. Core components of the program and areas of specialization include:

- The Big Data Challenge
- Data Acquisition Technologies
- Big Data Management
- Machine Learning
- Semantic Web and Internet of Things
- Statistical Modeling and Predictive Analytics
- Visual Data Analytics
- Internet Security and Privacy
- Legal Aspects of Data Engineering and Data Ethics
- Document and Image Analysis
- Mathematical Finance
- Geo Information Systems
- Modeling and Simulation in Supply Chain Management
- Localization
- Information Theory and Coding
CAREER SERVICES

The Alumni and Career Services Center accompanies students through all stages of their career development in order to enable them to achieve their professional goals. The Career Services Center organizes career fairs, company recruiting events, as well as training on project management, business communication, job interview skills, and more.

FINANCING OPTIONS FOR TUITION

The university offers students personalized financing offers for tuition consisting of one or more types of financial support in the form of scholarships, and/or tuition deferral.

Education is a substantial investment in your future, at Jacobs we strive to make it an affordable reality for students from across the world. Therefore, we offer students personalized financing offers to help cover their tuition fees. They consist of one or more types of financial support in the form of scholarships and tuition deferrals. We are convinced that a Jacobs’ education will form the perfect foundation for your future career – that is why we are happy to invest in you.

SCHOLARSHIPS

All students are considered for an academic achievement scholarship up to € 12,000 based on their bachelor grade point average.

✔ The number of these scholarships is not limited and no separate application is required.
✔ Students are informed about their scholarship amount immediately following admission.
✔ EU students are eligible for a minimum guaranteed scholarship of € 4,000.

“JU STUDY@EASE” TUITION DEFERRAL

All admitted students are automatically offered the option of tuition deferral, regardless of financial circumstances. The amount each student is allowed to defer is calculated upon admission. This optional program is offered in cooperation with our partner Brain Capital.

✔ Repayment doesn’t begin until a predefined minimum income is reached.
✔ A percentage of the income is paid for a limited period of time.
✔ If the income is lower than the defined minimum income level, repayment is deferred.
